Profile

Senior Software Engineer and Tech Lead with 8+ years building software, including 5+ years in professional roles across e-commerce, full-stack web, mobile, and live sports technology. At Eventistry, I build real-time broadcast automation for multi-day league events and contributed to two official national league apps on iOS and Android. I work across React.js, React Native, Next.js, Node.js, and AWS, lead Agile delivery, and mentor junior engineers. MSc in Data Science (Merit).

Experience

Senior Software Engineer & Tech Lead
June 2023 – Present

Eventistry (Pvt) Ltd, 87.agency, Sri Lanka

Lead full-stack and mobile development for sports and event platforms across the Eventistry group, including Key Sports Network (KSN), using React.js, React Native, Next.js, Node.js, and AWS. Drive Agile delivery cycles, mentor junior engineers, and work alongside 20+ member broadcast production teams during live events.

- **Live broadcast automation:** Built real-time broadcast automation systems for Key Sports Network, driving on-air auction lineups, live auction updates, and live scoring across full league coverage (up to 5 broadcast days per league, including auctions) for padel leagues, the Ceylon Pickleball League (CPL), and NextXV.
- **Tournament analytics:** Developed broadcast automation and live analytics views for the NextXV rugby tournament.
- **League mobile apps:** Contributed to the development and App Store / Google Play release of the official Sri Lanka Padel League (SLPL) and Ceylon Pickleball League (CPL) apps, used by players and fans across two national leagues. Features include live scoring, standings, playoff brackets, fan polls, and push notifications. SLPL: App Store, Google Play | CPL: App Store, Google Play
- **Client websites & dashboards:** Built custom websites and dashboards, including social media analytics dashboards that turn client survey data into stakeholder reporting.

Software Engineer, Frontend
May 2022 – June 2023

Baryon SE, Sweden

Built and maintained the frontend of a CE-certified Laboratory Information Management System (LIMS) under GLP/GMP frameworks using React.js. Also served as Scrum Master for agile delivery.

Business Development Executive, E-Commerce
Nov 2020 – July 2021

Royal Lanka Agencies, Sri Lanka

Built and launched the finebrandz.lk e-commerce store on Shopify, and drove customer engagement through social media and customer relations.

Co-Founder
Jan 2018 – Present

Izocele (Pvt) Ltd, Sri Lanka

Lead frontend development and technical strategy. Deliver client websites and software projects, and manage client relationships.

Insurance Consultant, Life Insurance
Aug 2017 – Dec 2019

Arpico Insurance PLC, Sri Lanka

Received the NAFLIA award and ranked among the top 3 agents, managing 50+ clients and mentoring junior consultants.

Selected Projects

Skin Cancer Detection Model (MSc research) 2024
Cardiff Metropolitan University

Developed a CNN-based image classification model to detect skin cancer across 7 lesion categories. It achieved 80% accuracy while being trained and optimized on limited hardware (8 GB RAM).

Skills

Languages: JavaScript, TypeScript, Python, PHP, SQL
Frontend & Mobile: React.js, React Native, Next.js, Astro, WordPress, Shopify
Backend: Node.js, NestJS, Express
Databases: MongoDB, PostgreSQL, MariaDB, Firebase
Cloud & DevOps: AWS, Docker, Git, App Store and Google Play releases
Data Science & ML: TensorFlow, PyTorch, CNN image classification, model training and optimization
Specialist Areas: Real-time broadcast automation, live scoring systems, analytics dashboards
Leadership & Delivery: Agile/Scrum, technical leadership, mentoring, requirements gathering

Education

MSc Data Science (Merit) 2024
Cardiff Metropolitan University, United Kingdom

BEng Software Engineering (Second Class Upper, GPA 3.53) 2021
IIC University of Technology, Cambodia

Graduate Diploma in Software Engineering (SCQF Level 9) 2015 – 2021
Java Institute, Sri Lanka

Diploma in English Literature 2015
Aquinas University, Sri Lanka
